TESTS

.....

Declaration of conformity issued by **CATAS**[®]
 with the 180x60 cm top

Conforms to the requirements of resistance,
 durability and safety, 2nd level EN 15372:2016

Tests carried out as per:

- EN 15372:2016, clause 6
- EN 15372:2016, clause 5.1 - 5.2
- EN 1730:2012, clause 6.2
- EN 1730:2012, clause 6.3
- EN 1730:2012, clause 6.4.2
- EN 1730:2012, clause 6.5
- EN 1730:2012, clause 6.6
- EN 1730:2012, clause 7.2

The declaration of conformity and related tests
 refer only to full-body coloured articles.

Attention to ensure stability under a vertical
 pressure, the part must be stabilized according
 to point 7.2 of EN 1730:2012.

To do this, inert material (es. dried sand)
 must be poured into the hole at the bottom of
 the base. The amount of the material will vary
 according to the article:

- art. A4494/A4495 80 cm - kg 21
- art. A4492/A4493 80x80 cm - kg 30

Finally, close the hole by screwing the threaded
 cap back on.
