TESTS (ART. 6311)

Attention to ensure stability under a vertical pressure, the part must be stabilized according to point 7.2 of EN 1730:2012.

To do this, inert material (es. dried sand) must be poured into the hole at the bottom of the base. The amount of the material will vary according to the article:

art. A4494/A4495 80 cm - kg 21

art. A4492/A4493 80x80 cm - kg 30

Finally, close the hole by screwing the threaded cap back on.
